

SUBMISSION OF IDEAS TO LUND INTERNATIONAL, INC.

Please read carefully before completing and mailing associated form.

Thank you for your interest in submitting a product idea to Lund International. Each year, many people contact us with suggestions for new products and we are pleased that they choose to share their thoughts and innovations with us. We are always mindful of the time and creativity these submissions represent.

Before submitting an idea to us, we would like you to know it is rare that ideas received from individuals outside Lund International are put into production. We employ a large number of hard working teams of engineers and designers and marketing personnel, who are constantly developing ideas for new products, additional features and better methods of manufacturing. For that reason, it is often the case that most of the suggestions that come to us from outside Lund International duplicate or are similar to ideas that we have already developed or have the right to use.

It's also important to note that, for your protection as well as the protection of Lund International, we have a strict policy on consideration for ideas received from outside The Company. **Lund International does not solicit suggestions or submissions on ideas or products from persons not in our employ. In addition, no obligation will be created between you and Lund International except under a separate, formal written agreement signed by you and an officer of Lund International.**

If we are not able to pursue your idea, we will notify you only that we have considered your idea and are not interested in pursuing the matter. From past experience, Lund International has found that explaining the reasons for our lack of interest often requires disclosure of confidential information.

Please complete and sign the attached Submission and Disclosure Letter and return it to our Product Ideas Submission Department if you accept the terms of submission explained in Lund International's policy and in the Submission and Disclosure Letter. It is suggested that you retain a copy for your records.

Again, thank you for your interest in sharing your idea or ideas with Lund International. Whether or not we are able to make use of your idea, we will continue to work to be the premier supplier of Light Truck automotive accessories.

Our Best,

Product Ideas Submission Department

As described on the attached Disclosure Form. I acknowledge that my submission to Lund International is made without any solicitation by anyone at The Company. I understand that many ideas or products are submitted to Lund International by persons outside The Company and that Lund International has adopted a policy of not accepting ideas or products for consideration unless the submitter agrees to the following terms.

6. Any claim arising out of any disclosure by the Submitter to Lund International is hereby voluntarily and knowingly waived by the Submitter.
7. Any negotiations or offer for the purchase of license of any ideas or products or inventions disclosed to Lund International shall not constitute an admission of novelty, priority, originality,

8. All disclosures submitted to Lund International must be made in writing and listed on the attached Disclosure Form and returned to The Company along with this signed Submission and Disclosure Letter.
